### Experience

Senior Software Engineer / Billing Better

July 2021 - Present

I currently work with other software engineers in developing new features and maintaining the Billing Better platform by studying information needs, conferring with users, studying systems flow, data usage, and work processes; investigating problem areas; and following the software development lifecycle in rolling out new features.

Chief Technology Officer / ProDevs

Dec 2019 - July 2021

My utmost responsibilities centers around presiding over the development team being a technical thought leader overseeing all technical endeavors and analyzing performance metrics while remaining aware of emerging technology trends and adapting the organization's tech platform as needed.

Senior Software Engineer / Andela

August 2019 - April 2020

I develop software solutions by studying information needs, conferring with users, studying systems flow, data usage, and work processes; investigating problem areas; and following the software development lifecycle.

Software Development Mentor / Poise Nigeria Limited

August 2018 - August 2019

My job includes assessing individual/group training needs. planning, preparing and researching lessons. teaching IT staff to use various computer languages and specialist applications.

Software Developer / Zoracom

Jan 2016 - Dec 2017

I develop software solutions by studying information needs, conferring with users, studying systems flow, data usage, and work processes; investigating problem areas; and following the software development lifecycle.

Freelance Software Developer / Fiverr

Apr 2013 - April 2015

I bring my client's web application vision into reality. As a self-employed developer I work side by side with the project owner to get work done.

## Notable Projects

### [Billing Better](#)

ProDevs provides services that help small to large companies enhance growth, increase reliability and flexibility. With the ProDevs portal, Clients can easily get matched with technical talents that fits into their requests.

### [ProDevs](#)

ProDevs provides services that help small to large companies enhance growth, increase reliability and flexibility. With the ProDevs portal, Clients can easily get matched with technical talents that fits into their requests.
